- Notes**
- (i) FT (Freight Tonne) means cargo will be rated on whichever is higher of weight (in tonnes) and volumetric measurements (in cubic metres). Shipping / Landing / Consolidation charges will be computed correspondingly.
 - (ii) Cargo in compact bags / bales, steel and heavy compact metallic structures will normally be freight-rated on the basis of their weight, whereas cargo in boxes, cartons, bottles, loose bags or in loose / unit form will normally be freight-rated on the basis of their volumetric measurement.
 - (iii) All refrigerated cargo will, exceptionally, be freight-rated of their weight, but Shipping / Landing / Consolidation / Electricity & Monitoring charges thereon will be computed on the usual freight-tonne basis.
 - (iv) Shipper's Own Dry Container (except for Carriage of LPG and Petroleum Products): 5% rebate (on freight charges only).
 - (v) Shipper's Own Reefer Container: 10% rebate (on freight element only).
